St. Sabbas Orthodox Monastery

18745 Old Homestead

Harper Woods, Michigan

48225

The Beginning

St. Sabbas was founded in 1999 with the blessing of His Eminence, Metropolitan Vitaly. What started as the purchase of one property has expanded into over six acres which include the church, library, monastic quarters, beehives, and guest house.

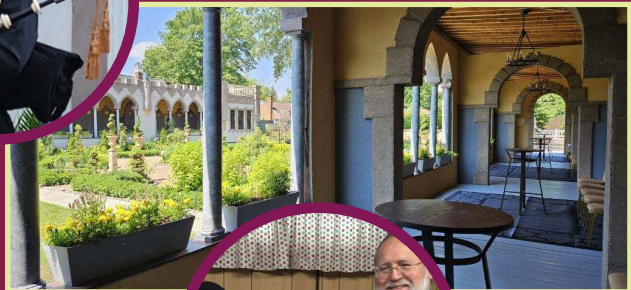

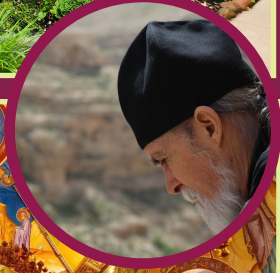

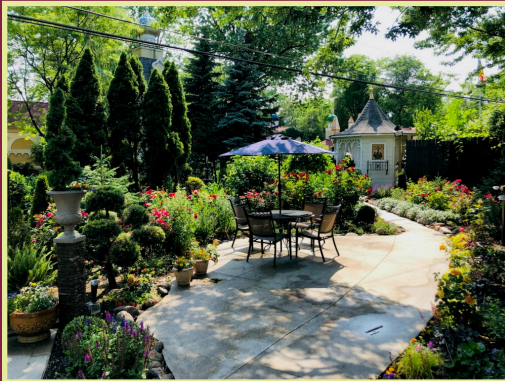

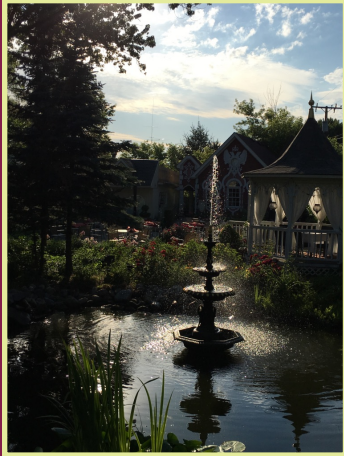

The monastery features fountains, the gothic cloister, ponds, mosaic shrines and St. George castle, all inside the expansive monastic gardens. The church is adorned with original authentic iconography by professional Byzantine artists from America and Greece.

The library features over 6,000 books on theology, scripture, and church history, in languages including English, Russian, Polish, Greek and Latin. The monastery also houses a gallery of 15th to 20th century icons and sacred items and relics...
